

Ya estamos llegando al final. Un último esfuerzo y ya lo tenéis conseguido!!

What would you like to be when you're older? (¿Qué te gustaría ser de mayor?)

Let's make a revision on "Jobs" by watching the [Vocabulary Animation](#):

Then, you can complete the tasks at Activity Book page 60.

Here, you can play with two simple [online memory games](#):

<https://www.english-hilfen.de/en/exercises/vocabulary14/jobs1.htm>

<https://www.english-hilfen.de/en/exercises/vocabulary20/jobs2.htm>

Talking about grammar, let's see [how to talk about the future](#). It's a piece of cake: just use the auxiliary **WILL** as they say in your Class Book, page 61. Have a deep look at it and then watch "Totally culture", a [culture film](#) about a girl called Charlotte, her school and her ideas about the future:

Practice by going to pages 61 and 98 at your Activity book.

Will our friends finally find Coach Jones? Let's [watch the story](#) and know about them:

You've got the video transcripts in the next pages.

Si necesitáis hacer cualquier consulta, sugerencia o, simplemente, comunicaros conmigo, podéis hacerlo a través de la [Web Familia](#) o la cuenta de correo manzano_juacas@gva.es

Mayor This is Luis. He's from Ecuador.

Ben Hello Luis, I'm Ben.

Luis Hi Ben

Ben Do you want to look around the future fair with us?

Luis Yes, please. That sounds fun.

Tara Look at all the stalls. Look, there's Mr Briggs. He's an **architect**. Would you like to be an architect when you're older?

Dex I'm not sure. There are so many jobs to choose from. There's an architect who designs houses or bigger buildings like airports and hotels. Or there's an **inventor**. Inventors are usually very creative. Or an astronaut who sometimes travels to the moon! That would be fun!

Tara Or what about a **dancer**?

Dex Dancers always eat healthily. There's a **clothes designer**. My cousin likes making beautiful clothes.

Ben And don't forget an **archaeologist**. But archaeologists usually work outside, even when it rains!

Ben There's a **vet** who looks after sick animals.

Dex Or there's a **journalist** who writes articles.

Tara There's a **sports person**.

Ben Or there's a **doctor**.

Tara I never visit the doctor. I'm never ill.

I think I will be an architect when I'm older like Mr Briggs.

Ben Let's play a game. Write down what job you think everyone will do in the future – and then we can guess who it is.

Culture presentation: film

Nelly I'm Nelly Telly and you're **watching** ... *Totally Culture!* In today's programme we're going ... *Totally Futuristic!* What **are** you **doing**, Clive?

Clive It's the year 2050. I'm **typing** on my school computer.

Nelly I can't see anything.

Clive That's because in the future computers **will be** so small you **won't be able** to see them!

Nelly Oh. What other things do you think **will be** different in the future, Clive?

Clive Let's find out!

Charlotte Hi I'm Charlotte from Oxford in the South of the UK. And this is my secondary school.

This is my teacher. He always wears a suit and a tie. He's very serious, but he's also very kind.

Lunchtime is my favourite time of the day because that's when we have lunch in the canteen. My friends **are having** a packed lunch.

I also love talking to my friends in the playground. But if it's **raining** I go to the library and read a magazine.

My favourite school subject is ICT. I'm good at computers. At the moment I'm **doing** a project about the environment.

I want to be an inventor when I'm older so that I can help the environment. I want to travel to Africa and help the people there.

I wonder what life **will be like** in the future. What **will be** different in the future?

I think that in the future towns **will look like** this. How amazing!

My house **will look** like this. The small bubble by the swimming pool **will be** my bedroom. And look at our car! How cool!

My school **will look** like this. We **will be able to practise** sports like football and cricket on the grass in front of the school.

And look in the sky – that **will be** our school bus, well not our school bus. It **will be** our school helicopter!

The teachers **will be** different too. This is Mrs Brown, a robot and an English teacher from the future. She **will** always **know** who's talking because she **will have** a microchip inside her head that knows everything!

When I'm an inventor, I **will invent** electric cars like this one, that **won't harm** the environment.

It's very exciting to think about what **will be** different in the future!

Clive I agree with Charlotte, the future **is** very **exciting**!

Nelly Yes it is. Clive, what's that?

Clive It's a robot. See you next time!

Nelly Bye!
